

Endorsement from Harrogate International Music Festival

The quality of the work and virtuosic dynamic performance of the three solo dancers was exhilarating, enhanced by powerful and atmospheric singing and hand percussion and brilliant guitarists. The whole was a polished authentic presentation integrated into a tightly woven whole, creating a powerful impact confidently confounding people's expectations as to 'real flamenco'. Overall it proved a distinctive programming choice within the Festival and I am sure it would be exciting addition to any arts festival and with the flexibility to fit into a range of diverse venues.

I look forward to welcoming Pepa back to Harrogate in the future.
